Loss of appetite and weakness limpair the health, and want of activity makes the mind discontented and nnhappy. In cases when old age adds her infin-ence, it is almost impossible to add vigor and health, and although many remedies have been tried, all have failed until Lindsey's Blood Searcher was known and used. In almost every case where it has been used, it has invariably given strength, and re-stored the appetite. It has become a great agreat for this alone, and is used by many who are suffering from loss of appetite and general debility. Messrs, Editors: I am not much disposed to complain of any grievance as long as it is possible to bear with it, but there are some things dock for repairs.

The idahoc and Kenton are expected from Circulated and Circulated a which I do not think can longer be borne with-I mean a portion of the negro soldiers now quartered upon us. Last night there came up Broadway to Shelby street about twenty-five or thirty. They were very boisterous and noisy until they arrived at the corner of Shelby and Broadway, where they came to a halt, and the command was given to load d-d quick. There they remained for some time, cursing and damning everything and everybody-telling how they had just shot at somebody down street, and how many shots were fired. This was a little after it o'clock. My family was much alarmed, especially the female part of it. While we out of the windows to see what would be their movements, they threatened to throw balls in at the windows and shoot our heads off, and to kill every d—d white man in town. I heard them existence with the control of the co and to kill every d—d white man in town, I heard then say they would kill every d—d one in town; I did not dis-tinctly understand who they meant, but some of the company said they swore to kill every white soidier in town; and after cursing, and velling and damning as much as they feit like, to the very great frigit of all that heard them, they commenced firing and moved off out Shelby street, firing off their guns several times. As they went up the street some distance when the street were distance. As they went up the street some distance they frightened up some Dutch families, and after cursing some time and shouting several times more, they went on their

Now, sir, I just have this to say: This thing has been repeated nightly for about tiree weeks, growing worse and more daring every night, and, according to the daring every night, and, according to the ratio of its increase to-night, if not stopped they will fire into our houses next. The truth is, if not stopped, we, who live around the crossing of Broadway and Shelby streets, will have to leave and hunt a more secure place. We cannot live under such frightful circumstances. This same crowd are the ones that killed our neighbor, Mr. Dailey, a few nights since. We hope and pray that something may be done to enable us to live in quiet security.

NEW YORK, Aug. 28, The steamer City of Washington, from Queenstown the 17th, is coming up. NEW YORK, Aug. 2%.

The Herald's Baton Rouge correspondent says that improved cotton and sugar lands in Louislana can be purchased at very low prices, some of the plantations being entirely deserted by the original proprietors and confiscated by the Government; others so neavily mortgaged that they have been alandoned in despair, while others can be bought for a there while others can be bought for a mere trifle, on account of the owners being so diagusted, with the negroes having been made freemen that they will not attempt to continue agricultural operations with them under Yankee protectors. It is said that the freedmen will work willingly and ndustriously, but they are very suspicious of the promises of those who were for-merly their masters, and are rather re-luctant in many cases to enter into con-tracts with them.

The Herald's Richmond correspondent

says grave difficulties of a military character have transpired in this department, near the line of the Tennessee in the disnear the line of the Tennessee in the dis-trict of Major General N. M. Curtls. It is known that General Curtis had become apprised of the existence of a large num-ber of cattle in the vicinity of the diffi-culty belonging to the late Confederate Government, and consequently without any other owner capable or pretending to claim a legitimate ownership. General Curtis sent a small force to capture the cattle, and those were successfully recattle, and those were successfully re-pelled by the bushwhackers and guerrillas of that section. Colonel Summer has been dispatched to the scene of the out-rages with an adequate force, and it is certain Major General Curtis will make exceedingly short work of this business

NEW YORK, Aug. 28. The Coroner's jury in the inquest relative to the fatal collision on the Oil Creek rail-road, Pennsylvania, on Thursday, returned a verdict charging that it resulted from negligence on the part of the engineers and conductor of the freight train, and requesting the Coroner to issue warrants for their apprehension. The jury also say that lives are constantly in risk on this road in consequence of its insufficient accommodations,

The total determines to the least received to the control of the rios. The total destruction by Indians of over five miles of the Western Union Telegraph line in Utah, at a single point, and the hostile attitude of the savages in that region, makes it important to dispatch an additional mounted force to learn how formidable they are beyond.

From highly intelligent Southerners, direct from South-Carolina, we learn that the question of negro suffrage will probably prove somewhat embarrassing to the South Carolina politicians. In settling the basis of representation in that State a strong party will be in favor of fixing on the white basis. While the low country interest have heretofore controlled the Legislature of the State by the preponderance in slaves, to insist now on the negro forming any portion of the representation will be more or less compromising upon the question of negro suffrage.

On Friday last an officer of authority called on Jeff. Davis, who announces himself as in very good health, the only drawback being a carbuncle on his leg and a slight touch of crysipelas.
